

## WIELTORIA 430 Motor Boat

### Technical Description

Wieltoria 430 Motor Boat is made of polyester glass laminate with the use of geolcoat and resin which have very good hydrolysis resistance. The hull has glass laminate and foam pvc reinforcements on stern and keels. The board has self-bailing cockpit. Locker boxes are hermetically laminated with the board. Board is hermetically laminated to the hull by outside turned collars. The whole construction is unsinkable and ensure very good stability when cockpit is filled in with water.

Close space of the hull-board is filled in with foamed polystyrene (laminated in pvc foil).

The board has cleats on the bow and the stern, transportation handles on the transom, ski tow and protective plate under the engine.

Water outflow is carried through cockpit through closed space hull-board near the engine oil bath. Access to the outflow is possible through hermetic inspection plate.

There are long grab rails on the sides of the cockpit. Stern bench is surrounded by grab rail with roll pillow. All benches are equipped with mattresses (choice of 7 colours). Space for portable fuel tank ca. 25l with fuel hose and primer bulb is fixed on the stern locker port side.

Steering console on the board is equipped with grab rail and fairing. Steering system consists of : steering helm, steering cable, steering wheel and tiller arm. Engine control consists of: single side mount control lever and two C2 type control cables. Steering cable with tiller arm and steering cables are suitable for most types of engines. Hermetic canal between console and sterboard side locker can be used for assembling electrical equipment.

Bow grab rail, cockpit cover and persening are optional.

### Technical Specification

Lenght	4.30 m
Width	1.80 m
Weight	280 kg
Engine	up tp 40 HP
Crew	4 persons (350 kg) cat. C 5 persons (400 kg) cat. D
